How It Works

Members and dependents who have a diabetes diagnosis may receive diabetic supplies, delivered to your door, at no cost to you. Diabetic supplies include blood glucose meter, test strips, lancing device, lancets and control solution. Other diabetic products may be available at a reduced cost through EHCS and are covered under medical benefit of the health plan. Order by phone, web or email.

About Bywater

Bywater is a provider of third-party administrative (TPA) services to the health insurance industry. An affiliate of Roundstone Management, Ltd. (Roundstone) based in Lakewood, Ohio, Roundstone is an insurance organization offering middle-market employers (20-1,000 employees) a unique solution that helps business owners access affordable health insurance for their employees – paying only for the healthcare they use while keeping the savings. There are many TPAs around the country; however, small to mid-sized employers do not fit well into their business models. Bywater was created to fill this void and meet their needs.
