Medications Requiring Prior Authorization (PA)

The following medications require a prior authorization (PA) as of January 1, 2025.

A PA is the process to clinically evaluate to determine if the prescription benefit plan will cover a medication. Some plans set limits on certain medications due to age, efficacy, cost, and availability. If prior authorization is needed, your doctor's office will need to complete a PA form located at truerx.com/forms and submit applicable chart notes. Instructions, including contact information, are included on the form.

GLP-1 Agonists for Diabetes	Adlyxin, Byetta, Bydureon, Mounjaro, Ozempic, Rybelsus, Trulicity, Victoza
GLP-1 Agonists for Obesity (if plan inclusion)	Saxenda, Wegovy, Zepbound
CGRP Inhibitors	Aimovig, Ajovy, Emgality, Nurtec ODT, Qulipta, Ubrelvy, Zavzpret
